

Our Soldier Boys

The following is a complete list of Washington County men who have served or are serving their country in the army, navy or marines, by towns. Towns not listed in this issue will be listed next week. The list has been made up by the county war historian, Mrs Josephine Miles and her assistant historians.

Citizens are requested to read the list over carefully and if they know of anyone serving their country or who has been serving, in any of the branches of the service named, whose names are not shown on the list, please notify county war historian immediately.

This is very important, as the names will form part of the State War Record.
